I was selected to join others in a week long ICT course at ITCT Africa. Being my first experience I didn't know what to expect.

However it was time well spent. Thanks to Ronald mweigwa A computer programmer from Mbarara University who took us through data bases a field I had never experienced and Dr Magambo on how to submit articles and web site management

the two courses have empowered me with skills of managing School databases back at school and using Web sites in teaching ,communicating with other professionals and for managing information. Am looking forward to being invited for more courses in future

yours JB Rubahamya
